

My English Summer
Recursos web para el verano
Primaria Segundo Ciclo

Recomendaciones previas para los padres:

El presente dossier tiene la finalidad de facilitar a los padres y profesores AMCO una breve lista de recursos online que AMCO recomienda para practicar, jugar, convivir, aprender y disfrutar en familia.

Es importantísimo que, en casa, los padres conozcan ciertos principios que los profesores AMCO tienen en cuenta en sus clases diarias:

1. Practicar la perfecta pronunciación con el audio desde la *Web Solution*, sin traducir las palabras.

Si el niño muestra interés en saber el significado de alguna palabra que no conoce podemos intentar dárselo a través de explicaciones o mímica. Sin embargo, recomendamos que se intente disfrutar de las actividades que sugerimos sin traducir y dejando que sea el alumno el que deduzca tanto lo que tiene que hacer como los significados de las palabras que aparecen.

2. Evitar obligar al niño o niña a realizar la actividad.

La realización de los juegos y actividades debe obedecer a un encuentro familiar para compartir ese momento de aprendizaje en inglés, lejos de obligar al niño a sentarse y realizar el ejercicio.

3. Lograr que el niño repita o practique lo escuchado sin que ningún adulto medie en la pronunciación.

La idea es que el niño discrimine la pronunciación nativa que oye en el audio y la intente repetir tal y como la oye.

A continuación encontrará una serie de enlaces en los que hallará actividades, vídeos, canciones y ejercicios divertidos para compartir con sus hijos este verano. Recomendamos diez juegos que encontrarán sin dificultades en la web, así como cinco aplicaciones para iPad.

Recuerden que para todas las actividades es necesario contar con altavoces, si el ordenador no los tiene incorporados.

Y ahora, sí... ¡a disfrutar del verano!
